Supporting legislation

The workshop scope

A meeting point for users with current and future information needs in crop monitoring with technology actors in novel solutions

With invited contributions from experts from Ukraine, neighbouring countries and European institutions

How can we best meet requirements, define best practice, identify information gaps, prioritize actions, involve other actors

Produce a set of recommendations for follow-up.

Workshop logistics

All participants are invited to have lunch (both days) and dinner (tonight) together at the hotel.

Please let me know dietary preferences (in the coffee break)

The meetings will be in Forum (this room) and Concord (6th floor, break-out session tomorrow morning only)

For those who are interested, a guided Kiev city tour can be organised on Friday afternoon.

Workshop logistics

For the invited guests who stay at the hotel:

- Check-out time is 12:00 AM on Friday
- The luggage room will be available
- The use of extra hotel facilities (e.g. room service, mini-bar) has to be paid separately

Wireless internet:
